**Subject:** In support of virtual supervision

Hi!

I am writing in support of virtual supervision. In addition to keeping everyone safer from COVID, virtual supervision offers greater access for social workers with special interests, such as GLBTQAI+, disability, child and adolescent or anti racist work to find supervisors who can support their clinical interests regardless of their geographic location within the state.

Virtual supervision is also more convenient for clinicians who see supervisees off site.

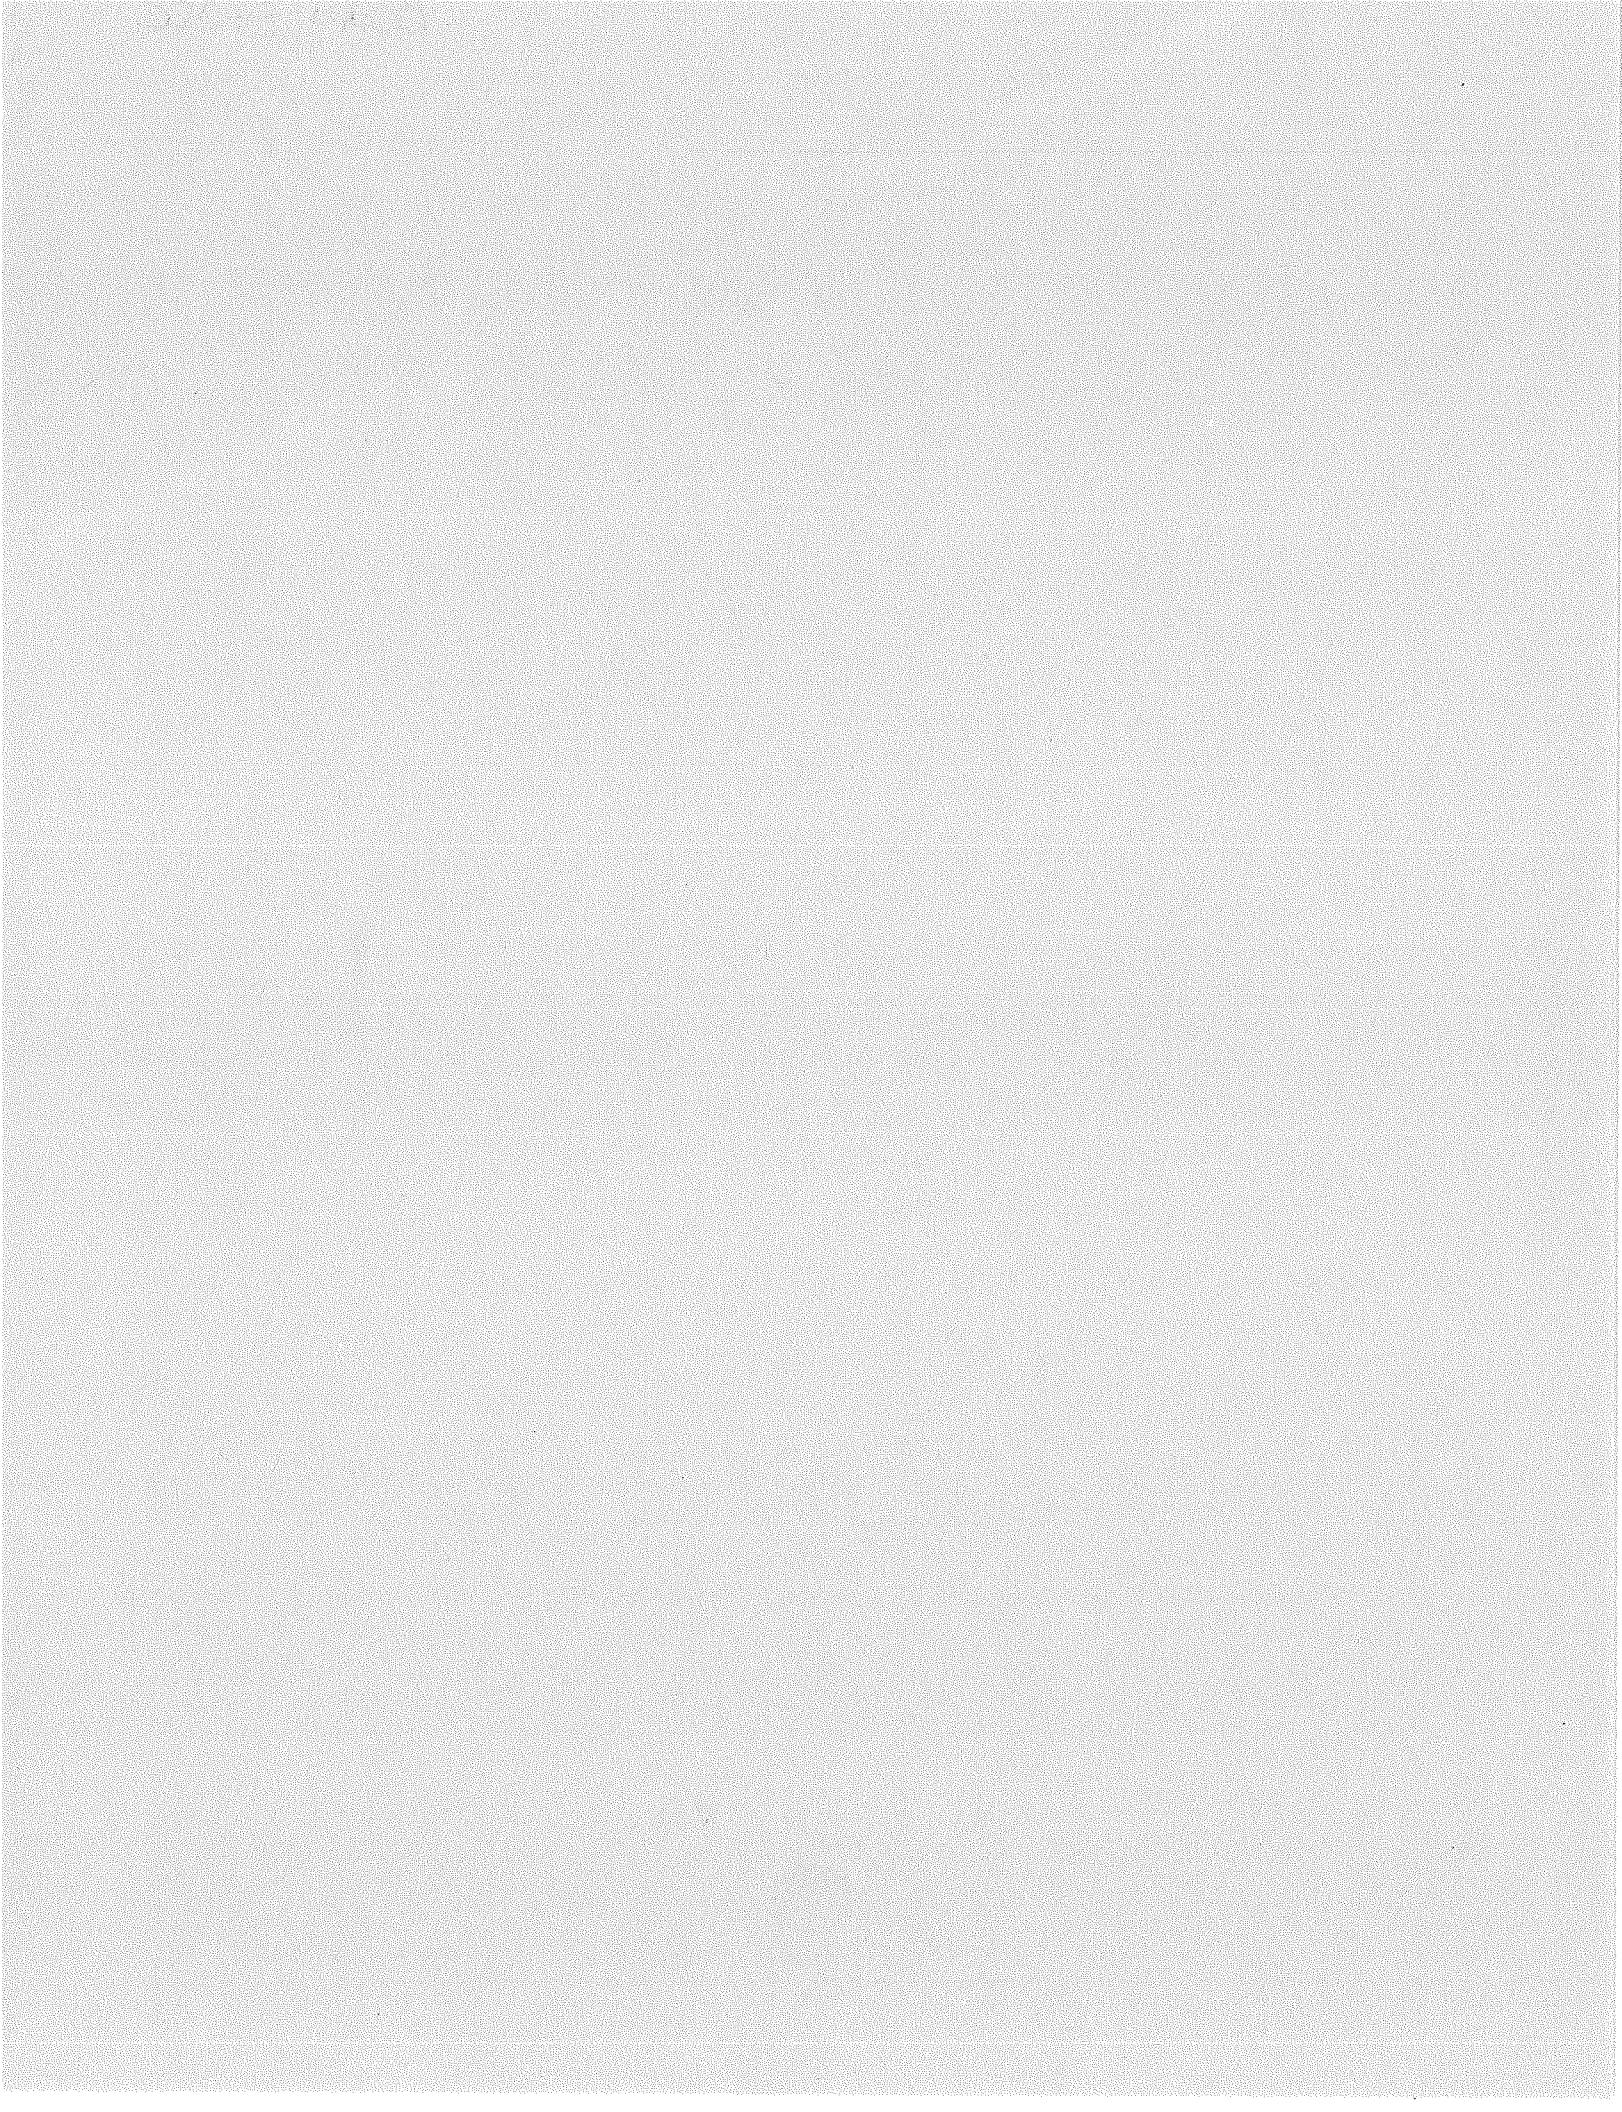

Thanks!

Ked Dixon LCSW-Bacs

Thanx. When will a decision be made as to the total number of Distance Learning continuing education hours that will be permitted for the 2022-2023 period?

There is no evidence that face to face training is preferable to online trainings. We should continue the process of permitting online CEUS for all MSWs. Limited research proves actually the online training has a great deal of efficacy. We can't roll back the process we learned. Now we now this is a reality. The pandemic turned our world upside down and this is one of the positive things that came out. Please vote to continue to accept online CEUS.
